Our Services

We provide a comprehensive suite of home-care services that allow individuals to remain in their familiar surroundings with the support they need.

Domiciliary Care

Our domiciliary care service gives support in the person's home – from personal care (bathing, dressing, grooming) to everyday tasks. We help with meals, laundry, household chores, and ensure the living environment remains safe, clean and comfortable.

Support for Adults with Learning Disabilities

We provide personalised, empowering support for adults with learning disabilities, focusing on independence, life-skills development, community integration and building meaningful relationships.

For individuals with long-term or advanced health conditions requiring ongoing support, our complex care service is tailored to meet their evolving needs. We work collaboratively with health professionals, families and the individual to deliver holistic, specialist care at home.

Additional Services

We can also offer a variety of additional support services based on individual needs – for example: household cleaning / home-help services; respite support; companionship; and flexible scheduling to suit work or family commitments.
